Stronger businesses. Smarter decisions.
Better outcomes for **South Africa.**

PROVEN

The Problem

Funded SMEs lose
visibility the moment
money is disbursed

Funders can't see
whether support is
producing real progress

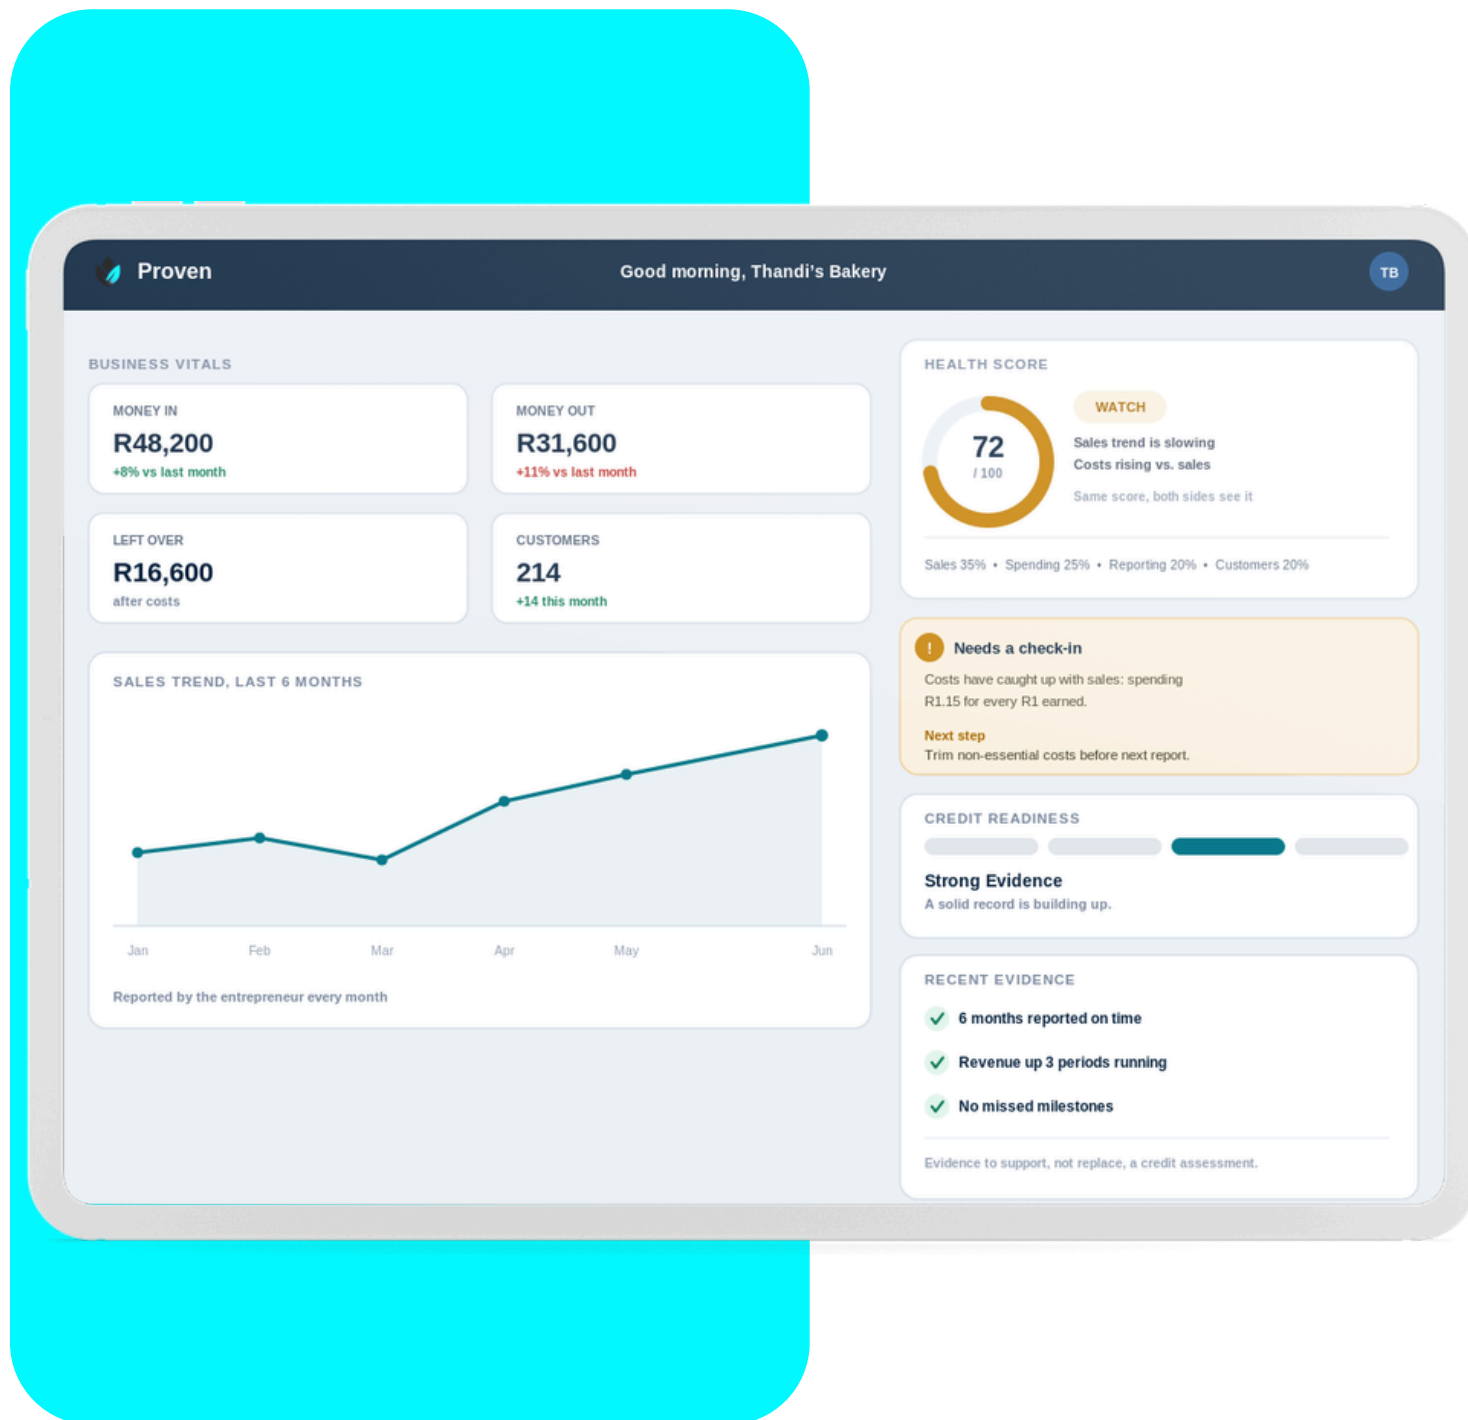

Silent business failure
means lost growth and
jobs

PROVEN

A post-funding intelligence web platform

One system. Two views. The same evidence.

Our Solution

Turning post-funding data into action and proof

Track

Track key business vitals such as revenue, expenses, customers and reporting progress.

Guide

Entrepreneurs receive clear recommendations on what to address, while funders see the same evidence

Detect

A transparent Health Score highlights changes in business performance before problems become critical.

Prove

Consistent performance creates a stronger track record that can support future funding and credit-readiness conversations

PROVEN

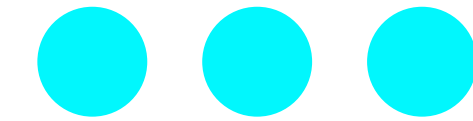

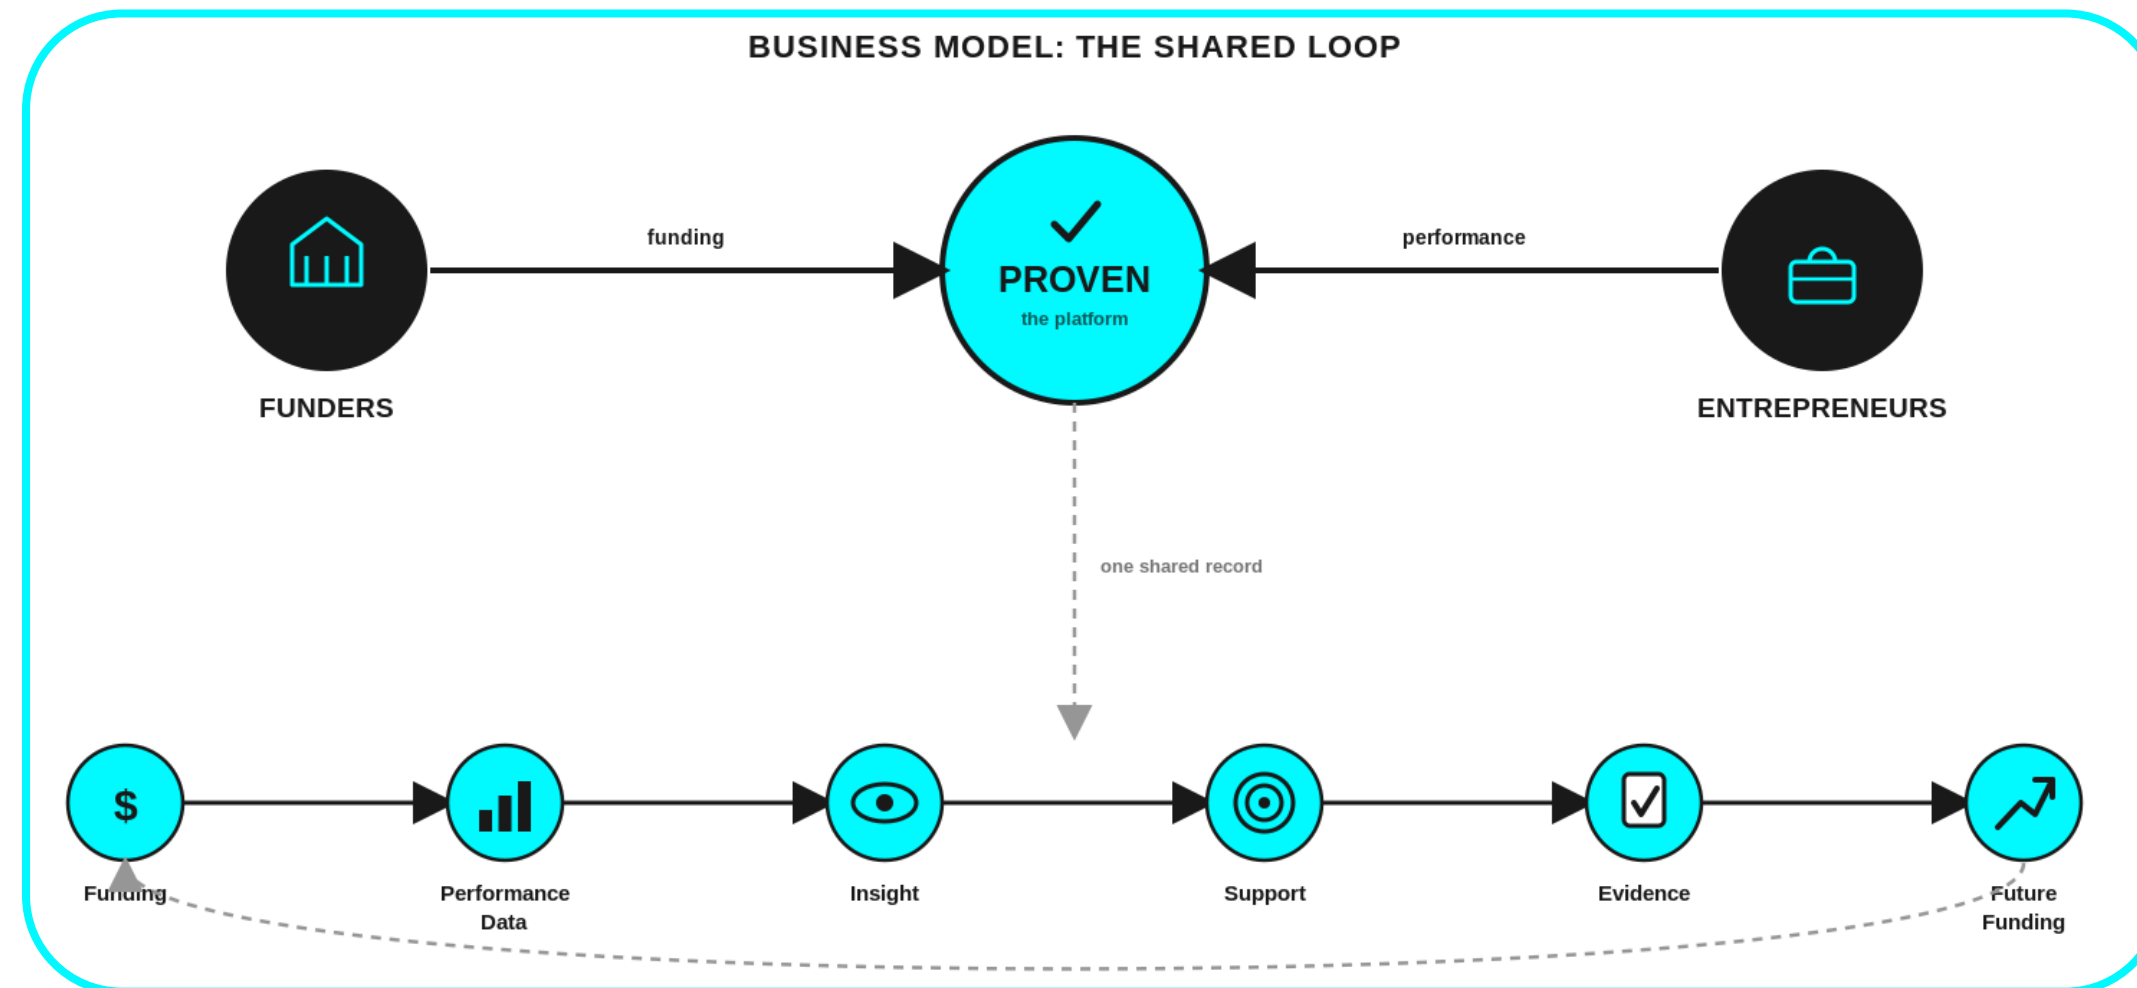

For Entrepreneurs

- ✓ Understand health, detect risks, take action, build a stronger track record

For Funders

- ✓ See portfolio performance, spot risks early, support better decisions

Business Model

Revenue Streams:

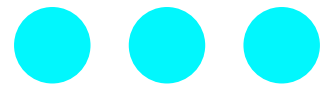

Primary: SaaS subscriptions & institutional licensing

Initial customer: Funders and organisations supporting SMEs

Future Opportunities: Financial integrations & credit-readiness partnershipss

PROVEN

Go-to-Market

Customer Acquisition

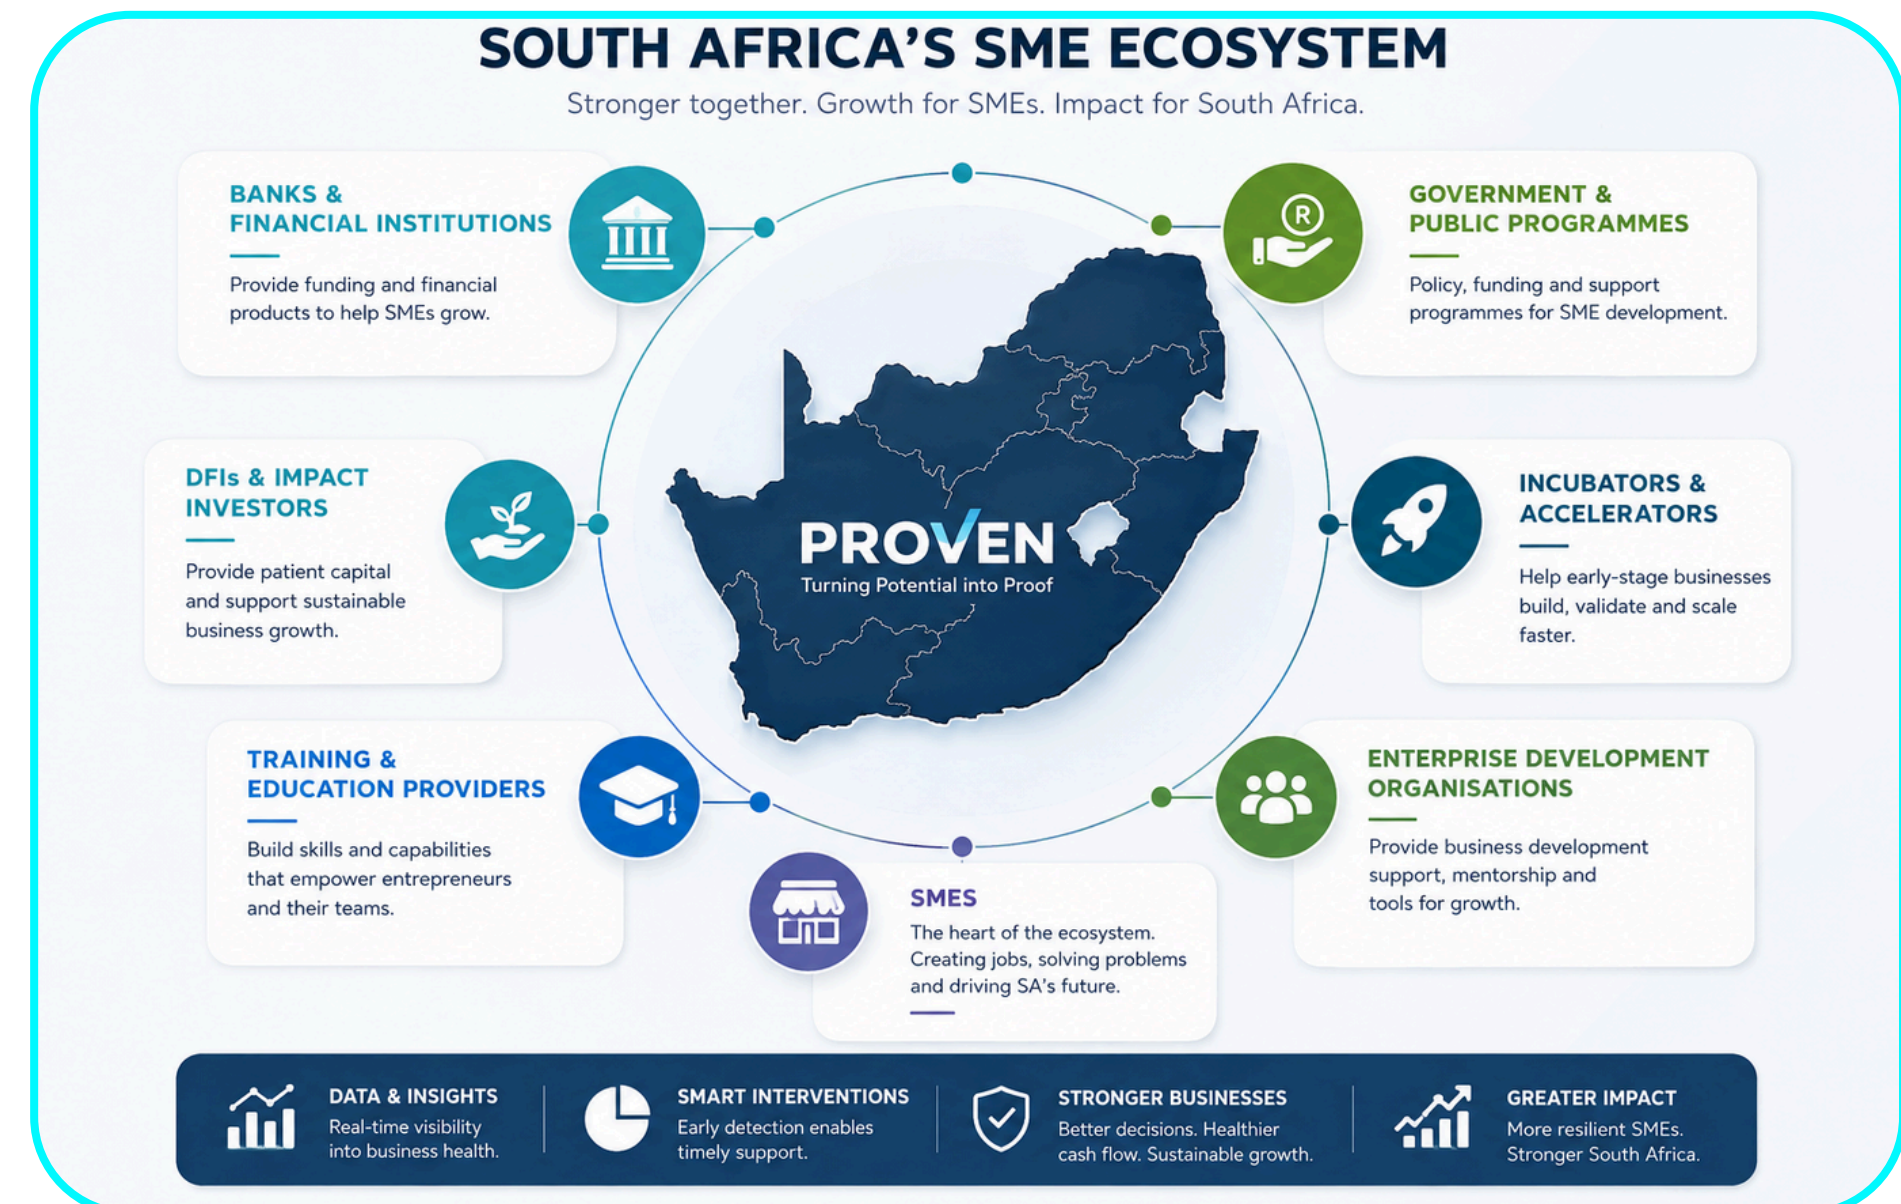

- ✓ Go B2B first, target organisations already funding or supporting SME cohorts

South African Partnership Targets

- ✓ Partner with SA banks, NYDA, SEDFA, incubators and accelerators

Growth & Scalability

- ✓ **South Africa → Africa**
Validate the model locally, then expand through institutional partnerships.
